Ultimate Line Array Rigging

## ODB-V-STORK

### Polar Focus Stork Frame for d&b V-series Loudspeakers

Polar Focus Stork line array frame fits d&b V-Series loudspeakers. The Stork frame allows the array to have easily adjustable pan and tilt under full load. Using any Polar Focus line array accessory or structural attachment this array frame can be installed quickly and easily.

This product is compatible with any Polar Focus product with a part code beginning with 'PY0' or 'PY1', allowing simple system design. We offer a full line of structural attachment accessories for roofs, walls, poles, crank towers, lighting truss and motor adapters.

Call our audio rigging consultants for more information at (413) 586-4444.
